Product Overview
Laraquat™ specialty conditioning polymer begins with the natural building blocks of the Larch tree active, Galactoarabinan (GA). GA has proven to provide many benefits in skin and hair care applications. To make this ingredient even more effective for hair care applications, Lonza has boosted the natural film-forming benefits of GA, enriching it further with patented quaternization technology.

Thermal Protection & Reduction of Hair Breakage – Leave-in Conditioner

- Laraquat™ polymer reduces number of broken fibers of hair, offering protection from thermal damage and breakage
- 48% reduction over control for number of broken hair fibers per tress
