

NAB™ Collection

Naturally Active Botanicals

Product Information

Plant derived chemistries continue to be technologies in-demand for personal care. Ingredients providing efficacy for skin and hair are what consumers are looking for today.

Lonza has developed an extensive collection of plant derived actives called Naturally Active Botanicals (NAB™). Each ingredient provides a unique set of benefits for skin and hair which have been evaluated for their efficacy by independent laboratories. With the NAB™ Collection, you can expect an active of superior quality, excellent efficacy, and a truly novel marketing position for your next product promotion.
