

# BRB Sempure 230

## Silicone Emulsion for Hard Surface Cleaners

Issue date: December 5<sup>th</sup>, 2014

### Description

**BRB Sempure 230** is a 30% micro-emulsion of a quaternary silicone polymer specifically developed for use in hard surface cleaning products.

### Application

**BRB Sempure 230** has been developed to be incorporated in hard surface cleaner formulations. It contains a film forming silicone that provides shine and protection to painted, ceramic or glass surfaces.

### Features

- Easy to formulate into aqueous systems
- Clear and shear stable formulations
- Beads-up water on surfaces

### Benefits

- Hydrophobic film former on hard surfaces
- Reduces the formation of scale on tiles and glass
- Increases the durability of water based polishes

### Typical Data

Parameter	Unit	Value
Appearance		clear to slightly hazy
Solids content	%	30
Type of emulsifier		non-ionic
Viscosity at 25 °C	cSt	120
pH		6-7

### How to Use

**BRB Sempure 230** can be used as is or diluted with water to the desired application concentration. Typical level of usage : 0.10 % up to 2 % silicone active.

A Product Safety Data Sheet should be obtained from your BRB office prior to use.

ATTENTION: Before handling, read product information, Product Safety Data Sheets and container labels for safe use, and any physical and/or health hazard information.
