

BRB Sempure 270

Silicone Emulsion for Fabric Care Softeners

Issue date: August 13th, 2015

Description

BRB Sempure 270 is a 70% micro-emulsion of a quaternary silicone polymer specifically developed for use in fabric care softeners.

Application

BRB Sempure 270 has been developed to provide excellent softness to all type of fabrics. It can be added as replacement to classical organic quats in fabric softeners.

Features

- Easy to emulsify
- Highly shear stable formulations
- Large pH stability range (from 3 to 12)

Benefits

- Provides excellent softness and good hydrophilicity
- Provides natural silky feel
- Compatible with organic softeners

Typical Data

Parameter	Unit	Value
Appearance		clear to slightly hazy yellowish
Solids content	%	70
Type of emulsifier		non-ionic
Viscosity at 25 °C	cSt	5500

How to Use

BRB Sempure 270 can be used as is or diluted with water to the desired application concentration.

A Product Safety Data Sheet should be obtained from your BRB office prior to use.

ATTENTION: Before handling, read product information, Product Safety Data Sheets and container labels for safe use, and any physical and/or health hazard information.
