

LIPOPHILIC STARCHES

Enhance the Activity of Your Cosmetics the NATURAL and EASY Way!

LIPOPHILIC STARCHES provide unique feel benefits as a granular starch. Hydrophobic surface enhances affinity for oil, hand slip and compatibility with surface active ingredients.

AGENAFLO OS 9051

Aluminum octenylsuccinic modified corn starch.

INCI: *aluminum starch octenylsuccinate*

Appearance: white to off-white powder

AGENAFLO 9052
