

# TEGO® Polish Additiv A 10

Technical Information

## TEGO® Polish Additiv A 10

### Biodegradable silicone oil emulsion for sensitive plastic surfaces

- Biodegradable emulsifier system for Clean & Care products in line with EC 648/2004
- Compatible with non-ionic, anionic and amphoteric systems
- High compatibility with sensitive plastic surfaces
- Easy water dilutable
- High gloss
- Water repellent

#### Chemical and physical properties (not part of specification)

Emulsion type	O/W
Emulsifier type	anionic
Density (20 °C) [g/cm <sup>3</sup> ]	approx. 1.0
Solid content [%]	approx. 39
Viscosity (23°C) , kinematic [mm <sup>2</sup> /s]	approx. 10
Viscosity of the silicone oil	10.000 mm <sup>2</sup> /s

#### Properties and applications

TEGO® Polish Additiv A 10 is an anionic silicone oil emulsion. It is compatible with most additives and emulsions.

TEGO® Polish Additiv A 10 is especially suitable for “clean and protect” of plastic surfaces or coatings that are sensitive to stress corrosion.

These O/W silicone oil emulsion is very stable and easily dilutable in almost every ratio with water.

TEGO® Polish Additiv A 10 can be blended with other silicone emulsions to create polishes with varying levels of gloss, depth of colour and water repellency.

The emulsion is bacteria-protected with a MIT/BIT preservative.

#### Packaging

200 kg drum

#### Storage stability

The product should be stored in sealed original package at temperatures between 10 °C and 30 °C. At temperatures below 0 °C the product can be damaged.

#### Hazardous goods classification

Information concerning

- classification and labelling according to regulations for transport and for dangerous substances
- protective measures for storage and handling
- measures in case of accidents and fires
- toxicity and ecological effects

is given in our material safety data sheets.

## Guideline Informations

### Plastic and Rubber Cleaner and Care

<b>TEGO® Polish Additiv A 10</b>	20.0%
Water, deionized	80.0%
Preservative	q. s.

### Preparation - Guidelines

For best mixing results add the TEGO® Polish Additives into the vessel first and add slowly the water with adequate stirring.

Edition: 08/2011

### Dashboard Care, antistatic

<b>TEGO® Polish Additiv WE 50</b>	20.0%
<b>TEGO® Polish Additiv A 10</b>	8.7%
Water, deionized	71.0%
Fragrance	0.1%
Preservative (MIT/BIT, <5%)	0.2%

### Gloss Spray for Plastics

<b>TEGO® Polish Additiv A 10</b>	5.0%
Water, deionized	94.8%
Preservative (MIT/BIT, <5%)	0.2%
