

Corum 5130

Product Information

FEATURE

- Derived from silicone
- Mild quaternary conditioner.
- Good compatibility with anionic surfactant.
- Leaves a soft and good wet combing property of hair.

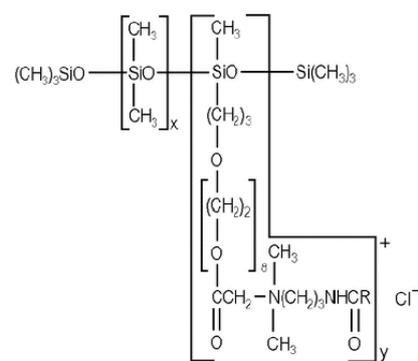

INCI NAME:

Silicone Quaternium-1

CAS No.:

EINECS No.:

STRUCTURE

where RCO- represents the fatty acids derived from coconut oil

CHARACTERISTICS

Appearance Clear liquid
 Odour Faint

SPECIFICATIONS

Colour (APHA) 500 Max
 pH 5.5 – 7.5
 NaCl content (%) 3.0 Max
 Solid content (%) 45 – 50

DESCRIPTION

Corum 5130 is the silicone-derived quaternary ammonium salt. It's a good hair-conditioning agent and offers superior wet combing-effects that leave hair feeling remarkably silky and tangle-free.

STORAGE

Store in original packing and seal tightly. Keep in a cool and dark place.

APPLICATIONS

It's an ideal component for shampoos and hair conditioners.
