TECHNICAL DATA

Presentation	Powder
Colour	Green
Fragrance	Odorless
Microbiology	<100 cfu/g
Packaging	20 kg
Shelf-life	120 months
INCI	Illite

1 } REFERENCE

Name	Code
Microzest 50 Green Clay	G429

2 } ORIGINE

Green clay comes from a clay deposit in Auvergne (France), at the foot of the volcanoes.

Used since antiquity, green clay has been passed down through the centuries for its efficiency.

3 } NATURAL PURIFYING CLAY

In contact with water, green clay turns into mud and contains many trace elements and minerals.

Thanks to its absorbent and purifying properties, green clay cleanses the skin to make it beautiful and luminous. Green clay eliminates impurities and sebum excess, but also purifies and cleans the hair.

4 } APPLICATION

- **SKINCARE:**
Absorbs sebum and impurities
- Ideal for masks
- **CLEANING AGENT:**
Purifying softly
- Ideal for dry cleanser
- **HAIRCARE:**
Purifies and cleans hair
- Ideal for masks
